

Earn a \$600 shopping pass

to support inclusive classroom environments

Completion of select inclusion-related professional development (PD) opportunities qualify the attendee for a shopping pass for their site.*

*A site refers to a child care program operating in a specific location. For example, if a program operates in two locations, each site is eligible for one shopping pass.

To qualify for the shopping pass, you must:

- Work with children ages 0-5 at a licensed, operating Child Care Center or Family Child Care Home (FCCH) located in Contra Costa County.
*Attendees working at TK programs are not eligible.
- Complete one of these PD opportunities related to inclusive ECE classrooms, including submission of a short evaluation.
- Provide contact information for the owner, director, or site supervisor who will be contacted to award the shopping pass.

How it works:

- The \$600 shopping pass must cover the cost of all items, including taxes.
- Orders must be submitted within 30 days.
- Supplies are limited! Passes will be awarded beginning with Fall trainings until they run out.
- Only one shopping pass will be awarded per child care site (no matter how many trainings are completed or how many staff attend).
